Texture Abbreviations

R	Erre - Smooth, distinguished by its appeal to the touch, softening colours whilst highlighting the harmony of compositions.
LUC	Lucida - A mirror finish that affords a unique sheen to the materials surface.
QZ	Quarzo - Rough, stone like textures combined with soft and beautiful pearl colours for exciting light effects.
SAT	Satinata - An abraded effect giving the appearance of fine lines whilst retaining some of its lustre.
OP	Opaca - A smooth matt surface giving a soft to the touch appearance, whilst minimising surface reflection.
CT	Cotton - A specialist metallic preparation giving the appearance of a gunmetal finish to the surface.
MK	Mika - An innovative finish which enhances decorative matter invoking the natural effect of quartz release in cut stone.
CLI	Cliff - Producing the effect of crushed stone. Warm and tangible, appreciated for its ability to evoke raw materials to sight & touch.
GH	Ghibli - An in-depth finish, intensifying our perception of various volumes, colour contrasts and translucent chiaroscuro.
LAR	Larix - Broad irregular striations ideal for creating sophisticated interiors, compatible with all styles of furnishing.
FLA	Flatting - Soft and irregular light patterns are reflected on the surface, whilst the light embossing appeals to touch, use and living.

* Denotes that the sheet is offered for sale with a removable protective coating as standard.
